

— TARGET CASE® MILITARY · DEFENSE GRADE

SINGLE LID CASE

Protect your mission critical systems and components. Aerospace & defence grade transit cases, all-welded and watertight, unaffected by temperature extremes.

OVERVIEW

Target Military aluminum cases are aerospace & defence grade transit and shipping cases. With an all-aluminum construction, single-lid cases are unaffected by temperature and maintain their strength and integrity across the complete climatic temperature spectrum.

SHELL GRADES

STANDARD DUTY	0.063 in. (1.60mm)
MEDIUM DUTY	0.090 in. (2.29mm)
SUPER DUTY	0.125 in. (3.18mm)
FINISH	Low Lustre Powder Coat
HARDWARE	300 Series Stainless

KEY FEATURES

// 01 ALUMINUM CASE SHELL

All-aluminum construction in three performance grades, unaffected by temperature across the full climatic spectrum.

// 03 HIGH STRENGTH VALANCE SYSTEM

Square tubular valance and corner lug system with dual continuous gaskets keeps cases watertight and resistant to deflection.

// 05 300 SERIES STAINLESS HARDWARE

All case hardware is 300 series stainless steel for all-weather reliability and durability.

// 07 PRESSURE EQUALIZATION VALVE

Automatic, or manual on request, "breather" valves maintain case integrity across temperature and pressure differentials.

// 02 ALL WELDED, WATERTIGHT

Case shell and valance are fully seam welded to create a high strength shell that is impervious to water.

// 04 EXTERNAL & INTERNAL RIBS

External ribs ruggedize the case and protect hardware from shearing forces. Internal ribs add rigidity for heavy payloads.

// 06 STACKABLE SKID PAD SYSTEM

CNC machined UHMW polyethylene skid and stacking pads let cases be dragged over rough terrain without damage.

// 08 POWDER COAT FINISH

Low lustre finish, grey standard, in four military colours. Custom finishes including wet paint CARC available.

— SINGLE LID OPTIONS

STANDARD OPTIONS

LIFT / TIE-DOWN

DELTA LIFT / TIE-DOWNS

300 series stainless steel, black, installed to customer requirements with backing plates and environmental gaskets.

CARRY

SURFACE MOUNT HANDLES

Additional stainless handles installed to requirement with backing plates and environmental gaskets.

SECURITY

PADLOCK HASPS

Rigid 300 series stainless hasp assemblies installed to requirement with environmental gaskets.

HANDLING

FORKLIFT PROVISIONS

Integral forklift provisions or fitted skid rails on larger cases for pump trucks and forklifts.

IDENTITY

ID TAGS & MARKINGS

Plates identify each case with part number, serial number and manufacture date.

FINISH

CUSTOM COLOURS & CARC

Custom colours and finishes, including wet paint CARC, available on request.

LOW LUSTRE COLOURS

- ☐ GREY (G) ☐ BLACK (B) ☐ DESERT TAN (DT)
- ☐ OLIVE DRAB (OD)

CONSTRUCTION

Fully seam welded, watertight shell and valance with dual continuous gaskets. 300 series stainless hardware and automatic pressure equalization valves throughout.

100%

SEAM WELDED SHELL

300

SERIES STAINLESS HARDWARE

2x

CONTINUOUS GASKETS

UHMW

CNC SKID & STACK PADS

REQUEST A QUOTE

Delta rings, padlock hasps, forklift provisions & custom markings available.
